2. The following is an examiner's statement of reasons for allowance: as applicants point out in the executed Rule 132 declaration, the ratio of the bidentate ligand to the monodentate phosphite ligand affects the ratio of higher molecular weight to lower molecular weight oligomers produced by the catalyst in a manner not fairly disclosed or taught in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
